To,
The Principal
Vishwasrao Naik Arts, Commerce and Baba Naik Science Mahavidyalaya
Shirala.

At the outset let me place on record my heartfelt gratitude to the college for inviting me as a resource person for wonderfully organized state level "Quiz, Model and Microtoon competition" at Vishwasrao Naik Arts, Commerce and Baba Naik Science Mahavidyalaya, Shirala. It is said that human mind is a treasure of curiosity and events like this one help in keeping that zest in a person alive and dynamic. This precisely is my feeling after attending the event. It came as a lovely opportunity for me to make new friends, learn and adapt new things, gain knowledge while exploring myself. Microbiology is a common language that has brought us together – despite the different places that we all belong. In this short visit I enjoyed exploring the talent pool of teachers as well as discovering as to what a great treasure of talent all these youngsters are..! The underlining thing was that the Microbiology competition was very skillfully and brilliantly organized while allowing full freedom and due weightage to student's creativity, talent and subject arena.

This meet must have been a boon for undergraduate students as it provided a unique platform for them to express their knowledge and ideas freely through posters, model competition and quiz. It was commendable that in spite of being from different rural and semi-rural background, the understanding of the subject, detailed knowledge and their focus towards demonstrating the ideas through different modes was excellent. I was specifically impressed with the unique and innovative ideas used to build model and poster by the undergraduate students. It was a pleasant surprise to see that maximum models and posters were made with local resources, and still they were up to the mark with great presentation value. Through this competition the college has encouraged students to think differently, and present their work with sheer confidence. It was amazing to listen from different college students that teachers played significant role in composing varied models and poster topics for this competition. The kind of dedication students, teachers and Microbiology Dept. have put for this initiative, is commendable and definitely proves to be a great beginning for the students towards their research career. All participated students deserve to become great researchers and scientists in near future. Through this competition the college has started a trend for giving platform to talented students to apply their energy at the right place. I hope that students have used this

opportunity to meet excellent students from different colleges, varied backgrounds and academic levels. This interaction must have enriched them and enhanced their knowledge of the subject.

Lastly, I would like to congratulate the organizing committee. The exhibition was organized by a dedicated group 'The Microtech club' of Vishwasrao Naik Arts, Commerce and Baba Naik Science Mahavidyalaya, Shirala. I was witness to the great levels of commitment and hard work put in by the organizers to make this event a memorable one. My heartiest congratulations to all the professors of Microbiology Department who participated in this competition. I know I would be failing in my duties if I don't mention the great inspiring force behind the event in the form of Dr. U. S. Patil, Principal and the chief fellow who made this competition possible. She always comes up with a great vision, enthusiasm and supreme confidence in her team. Her valuable guidance made this event a great success. I hope to get this opportunity again in the near future. I wish all of you a great future. Thank you.

From,
Dr. C.A. Kumbhar
